

The background of the slide features a modern, minimalist chair with a curved back and thin metal legs. A red semi-transparent banner is overlaid across the middle of the image. On the left side of the banner, there is a faint, stylized icon of a hand. In the center of the banner, the text "HK Longsmart Tech. Co., Ltd." is written in white. Below the text, the word "OPENTOOLS" is visible in a smaller, red font.

HK Longsmart Tech. Co., Ltd.

OPENTOOLS

Company Introduction

HK Longsmart Tech. Co., Ltd. was established in August, 2018 with its headquarter in Shenzhen. Since the foundation, we have focused on the design, development and production of the tablet & senior phones, including 3G, 4G, providing competitive products for our customers. We regard innovation as our soul, quality as our life: committed to working with the customers, creating the product localization and globalization, providing the reliable product through the innovation and high quality.

Currently our products are exported to Japan, Europe, Australia, Taiwan, the middle east, south American and Asia countries.

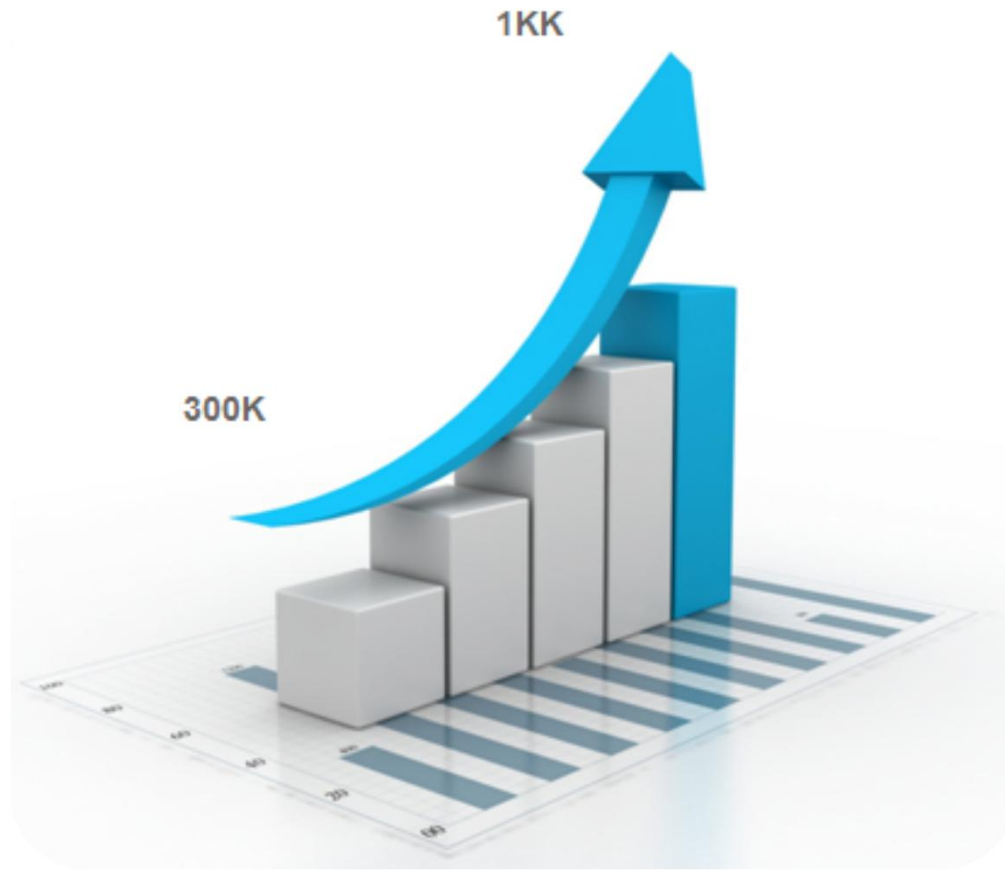

As an enterprise-class ODM, we aspire to become one of the top ODMs in the tablet and senior phone segment and create more value for our partners.

OEM Procedure

Assembly Capacity-Shenzhen

Standard ESD purification workshop

Assembly line: 4 lines ; Packing line: 2 lines

Hardware equipment: automatic lock screw machine, antenna hot press machine, 8960, CMW500 4G Integrated Tester, speaker isolation test room, dark box test tool, G-sensor level calibration tool, camera distance test tool, air-tightness tester, charging Cabinet, shield box, 100W class clean booth, dispenser, hot melt machine, high-precision electronic scale, etc.

Assembly Capacity-Sichuan

Standard ESD purification workshop

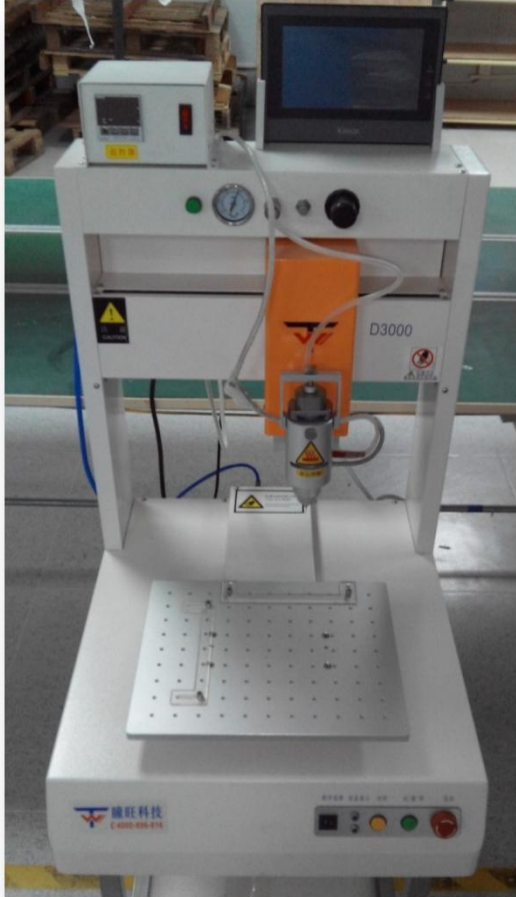

Mobile Phone assembly line : 4lines

Mobile Phone packing line : 2 lines

Hardware equipment: automatic lock screw machine, antenna hot press machine, 8960, CMW280 4G Integrated Tester, speaker isolation test room, dark box test tool, G-sensor level calibration tool, camera distance test tool, air-tightness tester, charging Cabinet, shield box, 100W class clean booth, dispenser, hot melt machine, high-precision electronic scale, etc.

Assembly Equipment

Dispensing Machine

Dispensing process

We have been using dispensers since 2018, and the technology is already very mature

Can meet the ultra-narrow frame dispensing.

Assembly Equipment

100W class clean booth

Air-tightness tester

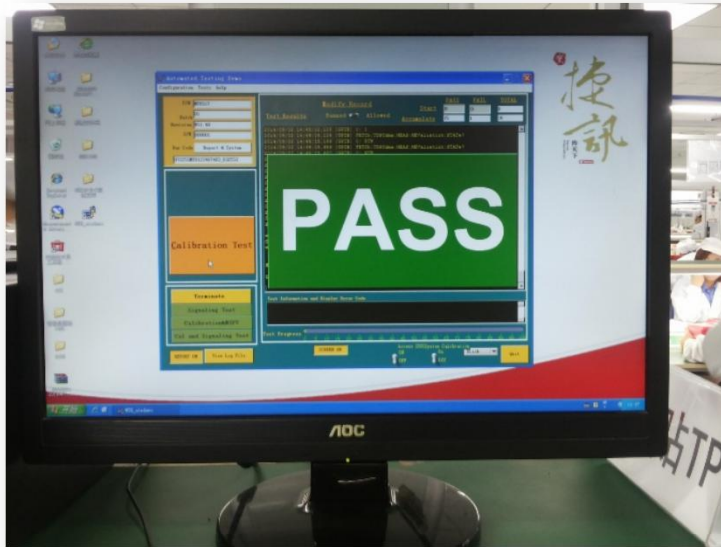

Automatic screw machine

Hot melt machine

Fool-proofing system

Coupling Fool-proofing System:

Automatically read the test value through software, automatically determine whether it is qualified, and avoid human erroneous judgment.

Packaging Fool-proofing System :

According to the process flow (create work order - write IMEI - check IMEI- gift box label - weighing - carton box label, etc.) IMEI data, use Fool-proofing System to achieve process optimization and improve the overall packaging data security.

Shrink Film Process

According to the requirements of customers, we have used the automatic carton box heat shrinking equipment and the gift box heat shrinking film equipment, which can better meet the quality requirements of customers' products for waterproof and moisture proof.

Reliability test
